Signature of Endorsement

We the Club/Service confirm that we have completed the 2010-2011/2011-2012/2012-2013 Lifesaving Service Agreement in full and have also read and understand the contents of the Surf Life Saving NSW Standard Operating Procedures Manual. This Lifesaving Service Agreement and the SLSNSW Standard Operating Procedures Manual will be made available to Patrol Captains/Service Operators at the Club/Service Base or Operations Room (or equivalent).

We the Club/Service agree to meet the obligations and follow the procedures within these documents in an effort to reducing drowning along the NSW Coastline.

We understand that as a Club/Service we may set minimum patrol requirements over and above the State and Branch minimums and will provide this information to our members in the relevant Branch or Club plans.

It's understood that in any year we may formally write to Branch/SLSNSW requesting an alteration should significant deficiencies in patrol numbers occur.

This Lifesaving Service Agreement has been developed in consultation with our Club and Branch and we agree to the schedule outlined above.

CLUB: We agree to the terms of this Lifesaving Service Agreement
